

Worg Den (Summoning Totem)

Overview

Within the realm of the Warfang Clan, an ancient and mystical bond exists between the Worgs and their trainer. The Worg Den, a hidden sanctuary nestled within the clan walls, serves as the heart and sanctuary for the Worgs, a sacred haven where the spirits of Worgs past and present converge.

Within the Worgs Den, they emerge with primal grace, ready to heed their master's call to battle. Through the sanctuary provided by the den, the Worgs spring forth with renewed determination, their spirits invigorated by the proximity to their revered trainer, granting them an extra 2 inches to their deployment.

Moreover, the Worg's Den holds the power of rebirth, a testament to the enduring bond between the trainer and his pack. Fallen Worgs, whose essence lingers within the hallowed confines of the Den, find solace in the embrace of their ancestral home. Upon death, the Den will call to the Worgs, and they may be reborn anew to continue serving their trainer. When a Worg dies, disregard their character rule, as they may be resummoned again to the vortex for battle.

Thus, the Worgs Den stands not only as a sanctuary for the trainer's loyal companions but also as a beacon of hope and resilience on the battlefield. Through the power of the summoning totem, the trainer and his pack are united in their relentless pursuit of victory, their strength and unity unyielding as they emerge from the depths of the Den to confront all who dare to oppose them.

Summary:

- All Worgs gets an extra 2 inches added to their deployment radius from the summoning token.
- All Worgs even though they are characters are allowed to resummon after death in the Vortex during the summoning round.
